Business Consultant – Processes & Systems in Life Science (m/w/d)

MAIN5 GmbH & Co. KGaA is an independent and successful management consulting company headquartered in Frankfurt am Main, Germany. We solve key challenges of our customers sustainably and reliably, each of which is of high relevance in the growing international competition.

Our focus is on the leading companies in the life sciences sector. This is the industry in which we are at home and in which we have sustainable success through the definition, implementation and introduction of forward looking methods, strategies and solutions.

To strengthen our IT Systems & Process division, we are looking for a

Business Consultant – Processes & Systems in Life Science (m/w/d)

Your tasks:

- As a Quality Data Coder, you will translate details from Clinical Development audit reports into standardized quality management codes to enable wide-ranging analysis across all relevant processes of one of the leading global pharmaceutical companies
- You will regularly extract data from audit reports using the QM coding app for upload to the Clinical Data Lake
- You will support the data maintenance process
- You will support data improvement projects
- As a coding reviewer, you will participate in various QM quality events (e.g., discussion of audit reports/comments, nonconformances, inspection findings)
- You will contact auditors / authors of reports to clarify any content ambiguities

Your profile:

- You have successfully completed a degree in the natural sciences or technical field.
- You have a good overview of the core processes in Clinical Development (GcP, GPvP, Regulatory Affairs).
- Very good MS Office skills, especially in Excel
- Good knowledge of the requirements of GxP processes and standards in the pharmaceutical industry In addition to flexibility and ability to work under pressure, you are characterized by a high degree of communication skills
- Your working style is characterized by a "hands on" mentality and you value quality
- Due to the international nature of the company, a very good command of English is required
- A strong sense of responsibility, the ability to work in a team as well as an independent and accurate way of working are your special characteristics

Our offer:

- We offer you individual development, methodical and professional coaching by our experienced colleagues in a dynamically growing company.
- We offer exciting projects and enriching challenges in an interesting market segment with top-class customers.
- You will work in an international environment and belong to a highly motivated and excellent team.
- We offer flexible working hours, home office, state-of-the-art technology for networked collaboration in a virtual organization, performance-based compensation, fairness, openness, freedom for individuality, regular team events, training, and a lot of fun at work.

Your application:

Please send your complete application with cover letter, résumé, and – if appropriate – relevant references and certificates to Gero Neidlinger, E-mail: recruiting@main5.de.
